

OAM - MISSION STATEMENT

“To provide world class, customer focussed risk management, safety and security, business intelligence, and training consultancy services”

CORPORATE OVERVIEW

- ❖ Osprey Asset Management Pty Ltd (OAM) has its main operational base in Perth, Western Australia and regional offices in *Indonesia* (Jakarta), *UAE* (Dubai), *Iraq* (Baghdad) and *Jordan* (Amman). These offices are supported by an extensive range of Operational hubs and bases that are utilised in conjunction with particular client operations. These include but are not limited to *Kuwait, Kalimantan and Sumatra* with a number of others.
- ❖ The company provides; risk management, security consultancy, special skills transfer training, and business intelligence services internationally.
- ❖ The services provided by OAM are supported by almost 60 years of combined operational and training experience of the principal OAM team members. This experience has been developed in the international commercial security risk management field over the last decade and is supported by extensive time prior to that at senior levels in the Australian Defence Force, specifically the Special Air Service (SAS) Regiment and through successfully operating in high-risk military and law enforcement activities both in Australia and internationally.
- ❖ OAM has alliances with a wide range of associates both domestically and internationally with diverse professional backgrounds and who offer a comprehensive suite of specialist skills and experience.

SECURITY RISK MANAGEMENT SERVICES

OAM offers a broad range of services to meet a specific environmental or risk profile: The following services are offered and tailored to any particular clients needs;

❖ **Security Audits & Planning**

OAM undertakes comprehensive security and risk management audits to identify all threats and risks faced by a business operation. The OAM audit process:

- Follows the AS/NZ Risk Management Standard 4360:2004
- Is undertaken with comprehensive liaison and analysis with all client personnel
- Provides a detailed written report with outcome driven recommendations and a plan for the way forward

❖ **Security Management System (SMS)**

The OAM security management system (SMS) is a combination of:

- A detailed *Audit* of the corporate situation to establish the risk and threat profile of the organisation and operation
- Development of a *Security Management Plan* to solve problems, reduce risk and mitigate all threats
- Implementation and management of the OAM security system to include:
 - A documented system of practical *Standard Operating Procedures* that have been developed and proven at a range of actual operational sites in developing regions throughout South East Asia and Africa

- Provision of contract based management consultants responsible for oversight and coordination of all elements of the SMS - responsible for:
 - Expert advice on individual or organisational security and emergency needs
 - Emergency management planning, coordination, training, and briefings
 - Effective guard force operations
 - Skills enhancement and training
 - Liaison and communication with all regional and local security forces
 - Daily information feedback to management on security issues

An OAM SMS is in line with world's best practice and follows the principles of the internationally recognised standard for Risk Management - AS/NZ 4360:2004. Use of this standard ensures OAM is able to provide a comprehensive overall security management system for maintaining the operational viability and safety of the assets and personnel involved in the particular project.

❖ **Specialist Skills Transfer & Training**

OAM has developed a range of practically oriented and purpose designed training packages to meet individual or corporate needs. Formally accredited trainers with expertise in the given field deliver skills transfer packages in the following capabilities:

- *Maritime Security*
- *Investigation and enquiries techniques*
- *Response team and Guard Force training*
- *Close Personal Protection and guard details*
- *Maritime Asset Protection*

These services have been developed and delivered for a range of nationalities. All packages are tuned to the existing skill level of the participants, meet any cultural requirements and provide a train the trainer capability.

In addition OAM has an established training alliance with the Australian TAFE college educational bodies (in particular Challenger TAFE in Western Australia) to ensure that specific course packages can be offered and endorsed with International education certification.

❖ **High Risk Asset Protection Services**

OAM can provide a qualified individual or teams experienced in Personal Protection Operations as an escort for clients who are faced with an employment or country related elevated personal risk profile. The key aspects of OAM service are;

- The coordination of all individual security needs in an appropriate and discrete manner
- Combined team security to meet all levels of overt to discrete security protection subject to the clients needs and preferences
- Convoy or Asset protection operations. This has been achieved in the high threat environment of Iraq and is continuously updated to ensure the highest skill levels of personnel in meeting the dynamic threats of this environment.
- OAM prides itself on its capacity to develop and effectively integrate teams of national staff in operations through the world.

❖ **Crisis Management Planning & Contingency Response**

This service provides a practical set of guidelines and/or detailed plan(s) that reduce or transfer the risk(s) by providing:

- Guidance on monitoring and assessing the evolving situation

- Assistance in the corporate decision-making process as well as the on-site coordination of time critical actions
- Details achievable and practical actions and contingency plans
- A broad range of special to situation checklists to manage an often rapidly changing situation

❖ **Travel Risk Management - Personal Security Training/Briefings**

OAM has extensive experience in providing practical advice that assists corporate or individuals to manage the risks and threats associated with travelling in the post September 11 global risk environment. This service can be delivered in a range of formats:

- **Interactive Online (Web based or CD Rom).** OAM has developed a stand alone interactive CD Rom training package that can be delivered anywhere and provides a corporate solution to assist with duty of care obligations for personnel travelling
- **Seminars.** Alternatively OAM will conduct personal workshops and client specific briefing(s) current security situation relevant to the particular country or situation
- **Content.** All packages include:
 - Personal and security guidelines
 - Travel security
 - Kidnap survival training
 - Security awareness training and incident prevention

FEES

All services have a fee structure that will be devised to individual client requirements and the desired outcomes of the service.

- Our rates are offered either as task lump sum for a deliverable outcome and service or tailored rates if consultant services are required over the longer term
- OAM's Consultant rates are very competitive yet ensure that the highest quality of personnel and experience is provided
- OAM will offer a no obligation quote based on an outline of a client's needs and situation
